White Mountain Hearth Collection
universal wooden mantels &
deluxe flush wooden mantels

Surround Yourself With Comfort

The Start of a Great Universal Mantel

Empire Comfort Systems proudly introduces the White Mountain Hearth collection of Universal Mantels.

Empire's craftsmen (and women) build each mantel from 3/4-inch fine-furniture grade cabinetry components, including select hardwood veneers. Because this natural wood can vary in appearance, we grain-matched the components for each mantel. It takes a little more time, but assures you of a better looking mantel.

Each mantel is detailed in matching solid wood trim – in oak or poplar. The full 3/4-inch cove moldings and edge trim add structural integrity. Matching decorative trim pieces – in complementary sizes – add beauty and character. To ensure that your mantel keeps on looking beautiful for years, we glue and nail each trim piece.

Special tooling and a controlled environment allow our craftsmen to assemble your mantel with greater precision and tighter joints than all but the most skilled custom woodworkers can achieve.

Furniture-grade cabinetry components and 3/4-inch real wood moldings ensure lasting beauty

A Universal Flush Mantel and Base can create a warm hearth in a small floor space. Shown in oak finish, with Tahoe Direct-Vent Fireplace System trimmed in brass, and wrapped in emerald laminate

The Perfect Finish

White Mountain Hearth mantels are hand sprayed with specially formulated UV-cure finish that's more durable and more uniform than brush-on finishes. To ensure a perfect color match, all the components for your mantel are finished at the same time, by the same craftsman, using the same batch of stain or paint. After curing, your mantel is hand packed – ready to ship.

Oak-trimmed mantels can be ordered with a light oak finish perfect for modern, airy spaces. Our dark oak finish adds a touch of formality and warmth and makes your mantel the focal point of any room.

Our warm, rich cherry finish – applied over our hardwood veneer and solid wood trim mantel – brings out every detail in the wood grain and molding. Many designers prefer cherry finish for its ability to "color" a room and adapt to changing light.

Our versatile white finish – also applied over our hardwood veneer and solid wood trim mantel – acts as the perfect artist’s pallet for modern and traditional settings. Use accent colors and fireplace trim to makeover the mantel to suit the season or your mood.

For custom installations, White Mountain Hearth Universal Mantels are available in unfinished oak and unfinished hardwood. (Note: Our unfinished hardwood mantel is crafted from fine-grain poplar veneers with poplar trim. It is stainable, not just paint-grade.)

The Best Fit

White Mountain Hearth Universal Mantels are available in full, flush, and corner models. Matching bases and laminate trim help you design the perfect hearth for your home.

We build our mantels to fit our Vail Fireplaces and our Breckenridge Fireboxes, but our versatile design allows these mantels to suit almost any desired opening. So, with just two simple saw cuts, your installer can tailor your White Mountain Hearth mantel to fireboxes and fireplaces from most other manufacturers. The result is a clean, custom-look installation at a fraction of the cost.

History and Art Come Together

Empire Comfort Systems, Inc., has manufactured safe, reliable heating systems for over 70 years. We take pride in our reputation for quality products, backed by the best sales, service, and distribution network in this industry. White Mountain Hearth Universal Mantels combine our proven technologies with exceptional artistry and craftsmanship to add beauty and warmth to any home.

The White Finish on this Universal Full Mantel and Base sets off the black laminate and stainless steel trim surrounding the Vail Fireplace System

36-Inch and 42-Inch Deluxe Flush Mantels to fit White Mountain Hearth fireplaces and fireboxes

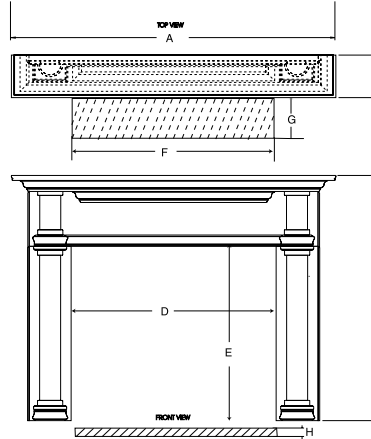

Deluxe Flush-Mount Mantels are available in Oak Finish and Paint-Grade. Mantels and Bases require Stone Surround Kits.

Our Deluxe Mantels use columnar trim and other moldings to provide the appearance of a full mantel while maintaining a low profile. These mantels are size-specific to fit White Mountain Hearth's 36-inch and 42-inch Deluxe Fireplaces and Fireboxes.
